**Subject: Pinellas County, Florida transportation survey, conducted for
SunBeamTimes.com**

Date: January 22, 2014

Executive Summary:

This scientific poll of 2114 Pinellas County, Florida registered voters was conducted on Wednesday, January 22, 2014. This poll used the registered voter lists supplied by the state of Florida as of January 3, 2014. The sample of voters that were called included random samples of active registered voters within Pinellas County, Florida.

The issues surveyed included transportation and tax referendum issues on the 2014 general election ballot.

Methodology:

The poll was conducted by an automated phone call polling system. The results were then weighted to account for proportional differences between the respondents' demographics and the demographics of the registered voter population for Pinellas County. The demographics used were: political party, race, age and gender.

The voters polled were chosen at random within the active registered voter population within Pinellas County. Only voters that had voted in both 2012 and 2010 were included in this survey.

The scientific results shown for the questions below have a sample size of 2114 respondents and a Margin of Error of 2.1% at a 95% confidence level.
